Rollback and/or tilt-bed vehicles must, in addition, carry a minimum of tow (2) motorcycle tie-down straps. Non-rollback vehicles must have dollies on the vehicle at all times. Any failure to provide the above-listed equipment or items on-site may result in loss of a service call at the deputy's discretion.~~

~~2.3.2.2 Vehicles intended for use as Heavy Duty tow vehicles shall meet and all federal, state and local requirements. They shall be inspected and passed by Motor Vehicles Division and DPS prior to use under this Contract. Inspections will be verified prior to vehicle being allowed or included into the rotation.~~

~~2.3.2.3 Contractor equipment shall comply with the requirements of City and State laws and DPS Tow Truck Rules and Regulations (Title 13, Public Safety, Chapter 3, DEPARTMENT OF PUBLIC SAFETY, TOW TRUCKS, see website [http://www.azdps.gov/Services/Commercial\\_Vehicles/Regulations/](http://www.azdps.gov/Services/Commercial_Vehicles/Regulations/)). All vehicles used to provide service shall have a current Arizona Vehicle Emission Inspection Certificate to exhibit compliance with local emissions standards unless exempted due to Contractor's location.~~

~~2.3.2.4 All tow vehicles shall have the Contractor's name painted in a minimum of three (3) inch letters on both sides and shall display a DPS inspection seal. All drivers shall carry business cards stating the location and telephone number of the storage facility.~~

~~2.3.2.5 The Contractor's tow vehicles may be used for other business purposes when not providing services under this Contract.~~

~~2.3.2.6 All Contractor tow vehicles shall have operational two-way radios, mobile telephones or other like equipment, installed for communication with Contractor's dispatcher.~~

~~2.3.2.7 Trailers or wheeled dollies shall not be used for towing under this Contract.~~

~~2.3.3 RESPONSE:~~

~~2.3.3.1 Contractor shall provide a single, 24-hour telephone number to MCSO to use to request towing services. Contractor must acknowledge their acceptance of a call immediately. If contact is made with an answering machine, Contractor will lose the tow and be placed on the bottom of the Towing Area List rotation. Contractor must immediately acknowledge if they can meet the time requirement for arriving on-scene as stated below.~~

- ~~2.3.3.2 The Contractor shall respond and arrive at the scene within thirty (30) minutes of the time the call is received, when a deputy or other MCSO employee is standing by. When no deputy or other MCSO employee is standing by (per MCSO Dispatch) the tow must be completed within three (3) hours. Failure by the Contractor to meet the response time requirement for an acceptable number of calls, as determined by County, may be considered grounds for suspension or termination of this Contract. County recognizes that occasions may arise in which the Contractor may be unable to supply a tow vehicle or respond within the required response time. In this situation, the County may use another Contractor on the contracted towing list.~~
- ~~2.3.3.3 Response time may be extended by MCSO to allow for reasonable and safe driving time or to compensate for periods of inclement weather that would create hazardous driving conditions as well as unforeseen highway closures and detours, or for parking limitations imposed by municipalities. It is also recognized there may be remote areas within certain tow zones where there may not be sufficient Contract coverage, thereby causing the response time to be longer than 30 minutes. County will take this into consideration when the response time exceeds 30 minutes in those zones.~~
- ~~2.3.3.4 The Contractor must have the ability to communicate with its drivers via radio, mobile telephone or other like equipment, so MCSO Dispatch has the ability to pass on information to the driver through the Contractor's dispatch center as the driver responds to a call. The use of an answering service as a means of communication with MCSO must be approved by the MCSO District Commander or his designate and must provide confirmation that the driver received the call.~~
- ~~2.3.3.5 If the Contractor's tow vehicle arrives at the requested location more than ten (10) minutes after, or notifies MCSO Dispatch that it will not arrive at the requested location more than ten (10) minutes after the required response time, the deputy on scene may declare the Contractor as non-responsive and request MCSO Dispatch to contact another Contractor's tow vehicle to the scene. MCSO Dispatch will notify the non-responsive Contractor that their call has been cancelled due to late response.~~
- ~~2.3.3.6 In a case where two (2) tow vehicles have been dispatched with one (1) Contractor on scene with a tow vehicle capable of towing both vehicles and the second Contractor's tow vehicle will not be on scene within the required response time, the deputy may authorize the on scene Contractor to tow both vehicles. MCSO Dispatch will notify the second Contractor that its tow has been cancelled. The cancelled Contractor will go to the bottom of the rotation in this event.~~
- ~~2.3.3.7 Contractor must respond to special requests from MCSO for the immediate removal of some vehicles. MCSO will pay the contract towing and storage fees for any abandoned or impounded vehicle seized by MCSO in error. Contractor must provide MCSO an emergency phone number to facilitate release of a vehicle impounded in error. MCSO will be the sole judge of any impounding error.~~
- ~~2.3.3.8 Under no circumstances, shall Contractor combine a County/MCSO tow with a non County/MCSO tow. Tow vehicles responding on scene with a vehicle already loaded or in tow will be rejected as non-responsive to the call and Contractor will be subject to possible suspension.~~
- ~~2.3.3.9 Contractor shall be allowed to tow vehicles with trailer combinations belonging to the same owner and provided the Contractor has the equipment to do so. The Contractor shall only charge for each hookup, and multiple storage fees per vehicle. Multiple towing mileage charges do not apply, and Contractor shall charge mileage for only one item. This also includes special tow requests on all piece items (i.e. scrap materials, doors, blocks, generators etc.)~~

~~2.3.4 — CALL CANCELLATION:~~

~~The Contractor agrees that when he responds to a call and the call is cancelled before the tow vehicle reaches the scene or tow vehicle reaches the scene and is released before any work or service the Contractor may invoice for one (1) applicable call out hour in accordance with Attachment A, Section 2.4, unless cancelled due to late response time.~~

~~2.3.5 — SITE CLEAN-UP:~~

~~The Contractor shall be clean up debris at the scene of accidents to which they have responded unless otherwise instructed by the deputy. The Contractor may make reasonable, addition charges, (e.g. extra equipment and/or labor), for spilled cargo recovery, vehicle recovery from filled waterways, or other extraordinary circumstances based on actual time and cost expended on the clean up upon approval of the deputy. (Contractors are not permitted to use juveniles (persons under the age of 18 years) to perform this clean up or any other function at the collision or call out scene unless exempt under A.R.S. §23-235).~~

~~2.3.6 — USE OF ANOTHER TOW SERVICE:~~

~~Contractor agrees that requests by vehicle owners or vehicle operators for another tow service will be honored if the on scene deputy determines it is reasonable.~~

~~2.3.7 — STORAGE FACILITY:~~

~~2.3.7.1 — The Contractor shall maintain a storage facility of sufficient size to hold all vehicles towed for MCSO under this Contract, but shall not be located within a wrecking yard that is in the business of dismantling vehicles. The storage facility shall be located within the Contract Zone, or at the discretion of MCSO: within an adjacent Zone at a location that is within a fifteen (15) mile radius of the approximate center of the Contract Zone(s), for all tows. The facility shall meet all state and local laws and ordinances. The Contractors storage facility must be located within the geographic limits of individual area designations as described in Exhibit 3. All vehicles towed under this Contract shall be stored in the storage facility described in Attachment E. (Exception: Contractor's storage facility may be located outside the stated tow zone boundaries only if approved MCSO. This approval will only be given under special circumstances, such as there being no commercial property available in the immediate area to meet the requirements of this Section 2.3.7.1.)~~

~~2.3.7.2 — The storage facility must be in a fenced area used exclusively for towed vehicles, though not towed exclusively under this Contract. The fence shall be at least six (6) feet in height. The fence may be constructed from chain link, masonry, wood or an equivalent fencing/security measure deemed sufficient by MCSO. Strands of barbed wire or fencing commonly known as "hog wire" or "chicken wire" are not allowed. The storage facility shall have lighting to provide sufficient illumination to ensure the security of all stored vehicles in Contractor's care; or Contractor may substitute with round the clock, on site security personnel. Physical security measures outside the current scope (as listed in section 2.3.7.2) shall be deemed acceptable with prior approval from the Tow Coordinator and/or Office of Procurement Services. The Contractor's telephone number shall be prominently posted on the storage facility location for after hours vehicles release.~~

~~2.3.7.3 — Contractor shall hold County and MCSO harmless for the safekeeping of towed vehicles and for items left in the vehicles. Any facility used by Contractor for storage of vehicles towed in conjunction with this Contract shall display signing that will easily identify the facility as a location used for~~

the storage of vehicles towed for County. The address of the storage facility to which a vehicle is towed must be on the business card provided the citizen by the tow vehicle driver. If the citizen is not at the location from where the vehicle is towed, the business card must be provided to the deputy at the scene.

~~2.3.7.4 Storage facility shall have capability to accept payment by vehicle owners, lien holders or owner's authorized agents. Contractor shall not require vehicle owners, lien holders or owner's authorized agents to travel to a separate location to make payment.~~

~~2.3.7.5 Storage facilities may be added during the course of this Contract. Added storage facilities shall meet the same standards as set forth above in this document. Attachment E must be fully completed and submitted as part of any request to add storage facilities. County shall determine the need for storage facilities throughout the County. Storage facilities may be added or removed during the course of this Contract, to meet County's needs.~~

#### ~~2.3.8 STORAGE OF VEHICLES:~~

~~2.3.8.1 The storage facility shall be on record with MCSO and vehicles shall not be stored at any location other than the storage location(s) on record. Vehicles shall not be removed from the storage facility of record for a period of ten (10) calendar days unless it is claimed by the owner or an authorized agent of the owner, or the owner or an authorized agent of the owner directs that the vehicle be moved to another designated location. If, after a period of ten (10) calendar days, instructions have not been received from the owner, their authorized agent or County, Contractor may move the vehicle to an alternate storage facility not more than fifteen (15) miles away that also meets the requirements of this Contract. Vehicles shall be taken directly to Contractor's storage facility unless otherwise authorize by the owner, owner's agent, MCSO or County.~~

~~2.3.8.2 Contractor shall **not** charge an additional towing fee when a vehicle is moved to an alternate storage lot at the Contractor's discretion.~~

~~2.3.8.3 Contractor shall **not** charge an additional towing fee when it is necessary for the Contractor to deliver a vehicle/unit(s) to the public roadway access adjacent to his/her property from the storage facility.~~

~~2.3.8.4 During normal business hours (8:00 am thru 5:00 pm), Contractor shall make a vehicle accessible, at **no** charge, to the owner or owner's authorized agent for purposes of retrieving personal items or removal of the vehicle from a storage lot, when the vehicle is claimed by the owner or the owner's authorized agent. This also applies if Contractor's storage facility is normally open for business on Saturdays and/or Sundays.~~

~~2.3.8.5 Outside of normal business hours, Contractor may charge a \$25 fee to make a vehicle accessible to the owner or owner's authorized agent. This fee shall not be charged for access on Saturdays and Sundays if the storage facility is normally open for business on Saturdays and/or Sundays.~~

~~2.3.8.6 Only Contract rates for storage may be charged to vehicle owners, lien holders or owner's authorized agents to reclaim abandoned vehicles. All towing and storage charges will be paid by the owner, lien holder or authorized agent of reclaimed vehicles, unless the vehicle was impounded in error by MCSO or a delay in the vehicle owner reclaiming a stolen vehicle that was recovered, as the result of MCSO not promptly notifying the vehicle owner of the recovery. In these instances ONLY, MCSO will be responsible for payment of any~~

~~towing and/or storage charges. Rates to be charged are as set forth in Attachment A.~~

~~2.3.8.7 In the event a stored vehicle needs to be identified by the MCSO Tow Coordinator, by secondary means (Level 1 or 2 inspection) due to a partial VIN or no VIN being recorded at the time of the original tow, the Contractor will be required to notify the Tow Coordinator, via email or telephone, within three (3) business days that a stored vehicle requires identification.~~

~~1. If the Contractor does not notify the Tow Coordinator within the three (3) business calendar days, payment of any towing and/or storage fees that MCSO is responsible for shall be limited to fifteen (15) calendar days. In this circumstance, MCSO shall not be responsible for any additional storage fees.~~

~~2. If timely notification is made to the MCSO Tow Coordinator and MCSO is responsible for the payment of any towing and/or storage fees; the Contractor will be entitled to additional storage fees up to and until the vehicle is identified.~~

~~2.3.9.3 The owner, lien holder or owner's authorized agent may have the property moved from the Contractor's storage facility by any lawful means. This does not infer that only the Contractor may perform the tow. The Vehicle owner or owner's authorized agent may have the vehicle towed from Contractor's storage facility. Contractor must allow another tow company entry to Contractor's storage facility to hook up the vehicle, or Contractor may move the vehicle out of its storage facility. Under neither circumstance, shall Contractor charge a fee.~~
